

BEFORE YOU LOCK IN A SAMPLING PLAN

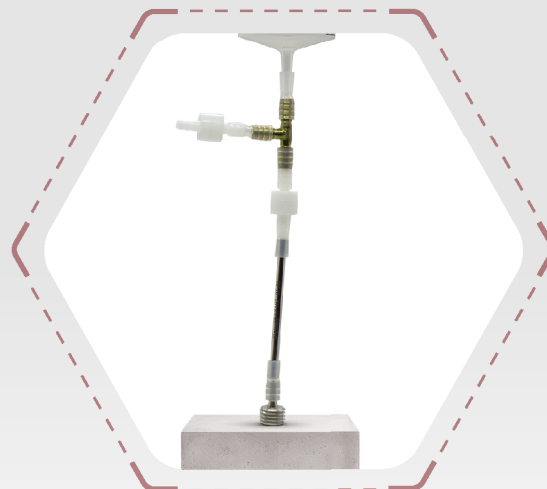

GET ACTIONABLE VOC DATA IN DAYS NOT WEEKS

Hybrid SS® helps environmental professionals screen sites quickly, refine conceptual site models, and make better sampling decisions before committing to large-scale investigations.

Why Environmental Professionals Start with Hybrid SS®

- + Rapid site screening
- + Defensible EPA TO-17 analysis
- + Supports smarter sampling strategies
- + Reduces unnecessary canister deployments
- + 3-day turnaround

WHY AMSPEC?

SMARTER SAMPLING

Screen sites early to refine your sampling strategy before committing to large-scale investigations.

LOWER PROJECT RISK

Reduce unnecessary canister deployments and avoid costly resampling.

CONFIDENT DECISIONS

Generate defensible EPA data that supports regulatory decisions and keeps projects moving in as little as 3 days.
